  <h1>hello</h1>
  <p>The history of the Philippines dates from the earliest hominin activity in
the archipelago at least 709,000 years ago.
    [1] Homo luzonensis, a species of archaic humans, was present on the
island of Luzon at least 67,000 years ago.[2][3]
  <p>The earliest known anatomically modern human was from Tabon Caves in Palawan
dating about 47,000 years.[4] Negrito groups
    were the first inhabitants to settle in the prehistoric Philippines.[5] These
were followed by Austroasiatics, Papuans,
    and South Asians.[6] By around 3000 BC, seafaring Austronesians, who form
the majority of the current population, migrated
    southward from Taiwan.[7] By 2000 BC the archipelago was the crux of a
Trans-Oceanic Philippine jade culture.[8]</p>
